

MSL Network Advisory Retreat
May 15, 2012
Montana State Library

Discussion Topic One: Defining Statewide Projects

How do we define statewide pilots versus projects versus programs?

Discussion Topic Two: Funding

How do we approach funding for pilots, projects and programs? How do we plan for gradually increasing independence from LSTA funding, where possible? Can we create short and long term funding plans for statewide LSTA efforts to guide our recommendations? Should funding limits be set for established “programs” such as OCLC Group Services and the MSC? Should funding specifically for “content” be limited through percentages and time periods? Other approaches and ideas?

Discussion Topic Three: Communication with Montana Librarians

How do we increase communication between the NAC and the libraries each member represents?
What kinds of communication tools can MSL provide?

Discussion Topic Four: Leadership

What does leadership mean to you? What does being a member of the NAC mean to you?

Task and Outcome: NAC Work Plan for FY2013

MSL Long Range Plan (http://msl.mt.gov/About_MSL/archive/arch_search.asp?tg=62)

Workplan FY2013 objectives and measurements

Professional development opportunities in FY2013 for NAC members (FY12 LSTA)
