Re: Planning and Evaluation Framework Templates

The small sub-group assigned the task of updating the evaluation framework and creating a separate planning template developed the documents linked in your meeting materials. The group discussed the roles and responsibilities of the Commission, NAC, and Core Services Committees to clarify who is responsible for what in the Montana Library Network.

The group has the following questions for the NAC

- Did we correctly capture the roles and responsibilities of each group – the Commission, the NAC, and the Core Services Committees? What would you change?
- When you review the planning and evaluation templates, do they give you what you need to make wise decisions?
- Are they still too large to be useful for decision making/planning purposes? Would you change anything, and if so, what?
