

MSC Junk Tags

When importing or exporting bibliographic records from Symphony, certain MARC tags can be removed from the records. The MARC tag in the junk tag files can be updated by us. The following tags are currently included in our files:

Records imported through SmartPort

029

933

938

949

952

966

998

999

1003

Records imported through WorkFlows Bibliographic Load report or via MARC Listener
